

UST Compliance Tester

Lansing, IL

Job Type: Full-Time

Description:

B&K Equipment is seeking an individual to become a part of our growing team. An Underground Storage Tank (UST) Tester is responsible for testing the compliant operation of underground storage tank systems used for storing and dispensing petroleum products and other regulated materials. This role involves conducting inspections, performing tests, and monitoring UST systems to identify potential leaks, assess tank integrity, and ensure compliance with relevant state and federal regulations and standards.

Key Competencies:

- **Inspections:** Conduct inspections of underground storage tank facilities to ensure compliance with applicable state and federal regulations.
- **Testing:** Perform various tests to assess the integrity and functionality of underground storage tanks, associated piping systems, and leak detection equipment. Common tests include pressure testing, hydrostatic testing, and electronic monitoring system checks.
- **Leak Detection:** Utilize specialized equipment and techniques to identify potential leaks or releases from USTs.
- **Compliance:** Verify compliance with regulatory requirements related to underground storage tank systems, such as leak detection, spill prevention, overfill protection, and secondary containment measures.
- **Documentation and Reporting:** Submit detailed records of inspections, tests, and compliance activities. Prepare accurate and comprehensive reports documenting results, deficiencies, and recommended corrective actions.
- **Enforcement and Remediation:** Collaborate with regulatory agencies, facility owners/operators, and environmental consultants to seek compliance and initiate corrective actions. Complete minor on-site repairs and submit remediation suggestions to our project management team.
- **Training and Education:** Stay updated on emerging regulations, industry standards, training, and certifications.
- **Communication:** Effectively communicate with stakeholders, including regulatory agencies, facility owners/operators, and other involved parties, regarding inspection findings, compliance issues, and corrective actions.
- **Safety and Environmental Considerations:** Adhere to safety protocols and guidelines to protect oneself and others during inspections and testing. Ensure compliance with environmental regulations and promote environmentally responsible practices.

Experience and Education:

- High School diploma or GED
- Valid State Issued Driver's License and good driving record
- Ability to Pass DOT physical.
- Ability to work outdoors in all types of weather.
- Ability to pass a drug test and background check.
- Ability to pass ICC UST Installation/Retrofitting U1 and UST Tank Tightness Testing U3 exams.
- Must be able to lift 75 lbs.

Benefits:

- Hourly Pay with Overtime after 40 hours.
- Paid Time Off
- Health Insurance (company paid premiums)
- Optional Dental and Vision Insurance
- Optional Life Insurance
- Optional Disability insurance
- 401K with company contribution
- Company cell phone upon completion of training
